CITY OF VAUGHAN

EXTRACT FROM COUNCIL MEETING MINUTES OF JUNE 23, 2008

Item 50, Report No. 36, of the Committee of the Whole, which was adopted without amendment by the Council of the City of Vaughan on June 23, 2008.

THE COSMETIC PESTICIDES BAN ACT

The Committee of the Whole recommends:

- 1) That the recommendation contained in the following report of the Commissioner of Legal and Administrative Services and City Solicitor, dated June 16, 2008, be approved; and
- 2) That correspondence be forwarded to all commercial entities in the City of Vaughan currently selling pesticides, requesting that notices be posted advising their customers that pesticides are illegal in the City of Vaughan and identifying those pesticides that are permitted.

Recommendation

The Commissioner of Legal and Administrative Services and City Solicitor recommends:

1. That Council adopts the attached Resolution indicating support of the Province's efforts in banning the use and sale of cosmetic pesticides in Ontario, and requesting that the *Cosmetic Pesticides Ban Act* (Bill 64) be amended so that more restrictive municipal by-laws be allowed to prevail.

Economic Impact

There is no economic impact of this Report.

Communications Plan

A copy of the Resolution will be forwarded to the Ministry of Municipal Affairs and Housing, the Ministry of Environment, the MPP for Vaughan, all York Region municipalities and municipalities in Ontario with a population over 100,000.

Purpose

This Report provides an overview of the *Cosmetic Pesticides Ban Act* (Bill 64), which proposes to amend the *Pesticides Act* to prohibit the use and sale of cosmetic pesticides in the Province of Ontario.

Background – Analysis and Options

On April 22, 2008, the *Cosmetic Pesticides Ban Act* (Bill 64) received first reading in the Ontario Legislature. Bill 64 will amend the *Pesticides Act* to prohibit the sale and use of cosmetic pesticides in the Province of Ontario. It will also provide an exemption for uses related to golf courses, uses related to agriculture, uses related to forestry, and uses related to the promotion of public health or safety.

Bill 64 will render a municipal by-law "inoperative if it addresses the use, sale, offer for sale or transfer a pesticide that may be used for a cosmetic purpose". Bill 64, however, does not itemize those pesticides that are considered "cosmetic". The term "cosmetic" will be defined in the Regulations passed under the *Pesticides Act*, once Bill 64 becomes law, which is anticipated to occur in the spring of 2009. Such a definition will likely capture those pesticides that the City already considers "cosmetic" in the City's Pesticides By-law 88-2008 (hereinafter the Pesticides By-law). However, it is also possible that the Pesticides By-law deals with pesticides which the

Item 50, CW Report No. 36 – Page 2

Province will not consider as “cosmetic”. In such a case, the City’s Pesticide By-law would be more restrictive than the Provincial legislation, yet the entire Pesticide By-law would be declared inoperative by virtue of the fact that it touches upon provincially defined cosmetic pesticides. Given that these Regulations have not been passed, it is not known at this time what effect that Bill 64 will have upon the City’s Pesticide By-law 88-2008. It should be noted that Bill 64 will also amend the *Pesticides Act* to allow the Lieutenant Governor to pass Regulations exempting municipal by-laws from Bill 64.

Based on the foregoing, Staff are recommending that the City request the Province to amend Bill 64 so that municipal by-laws that are more restrictive are allowed to prevail. The Province has legislated a similar provision in the *Smoke-Free Ontario Act*. Attached to this Report is a draft resolution.

Relationship to Vaughan Vision 2020

The recommendation in this Report is consistent with the principles previously set by Council.

Regional Implications

None

Conclusion

Bill 64 has only received first reading in the Legislature, and may be amended before it becomes law. However, if Bill 64 remains as is, it will likely render the Pesticides By-law inoperative, even if the Pesticides By-law is more restrictive than Bill 64. The effect that Bill 64 will have on the Pesticides By-law will not be known until the Regulations have been passed. In the interim, the City may make submissions to the Province with respect to the content of Bill 64. Accordingly, the City should request the Province amend Bill 64 so that a more restrictive municipal by-law would prevail.
