Dear Ms. Hau:

Please recall our brief conversation of last week made in reference to Fletcher's Fields Limited's request for a license from the AGCO to serve alcohol (beer/wine only) during events held in our stadium. As a prerequisite, Fletcher's Fields Ltd. must receive a *resolution from Markham Council*, approving the application (for the tiered area of the stadium).

Fletcher's Fields Ltd., a *not for profit* enterprise, owns and manages a twenty acre sports park in the north-west corner of the Town of Markham, which serves as the home for rugby in Ontario. Our modest revenue streams are derived from event rental fees, proceeds generated from food and beverage sales, gate receipts and an annual contribution from our six partners. Our business is seasonal in nature (weekends, May – November); success is heavily reliant on the cooperation of good weather. As such, the management of Fletcher's Fields is eager to investigate alternative revenue generating ideas. Presently, we are licensed by the AGCO to serve alcohol within our club house and on the adjoining deck only. A licensed stadium (service limited only to Saturday afternoons) would enable the generation of additional revenues required by Fletcher's Fields and its members to meet our collective objectives...

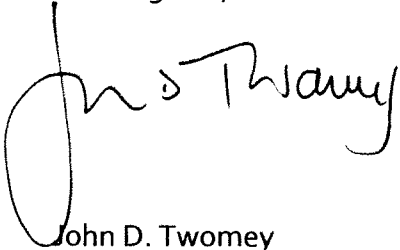

- To increase the number of communities, age groups, and educational establishments playing rugby in an organized manner.
- To increase the number of male and female participants in member rugby organizations.
- To raise the standards of play, discipline, coaching, refereeing, administration and facilities at all levels.
- To deliver programs and services which meet the needs and aspirations of member rugby organizations and enable rugby athletes to achieve their maximum potential

If you would be so kind, please present our request to Markham Council via the appropriate channels. Feel free to contact me directly if you should require further information about our organization or this initiative. Thank you for your help in this matter.
