Mayor, Frank Scarpitti,
Town of Markham

On behalf of the Ontario Municipal Management Institute and the Ontario Municipal Fire Prevention Officer's Association, we are pleased to advise you on the achievement of, the Certified Municipal Manager accreditation with the Fire Prevention "enhancement", by a member of your Municipality's staff.

Glenn Dick
Chief Fire Prevention Officer

recognized and awarded

CMM III Fire Prevention Professional

The CMM provides, a legally sanctioned, recognition of all education and work experience, with a framework to focus the member's career development. Over 1,600 local government administrators hold one, of four levels, of the CMM designation, across 30 professions. Accredited members represent all levels of management; from front-line Staff, Supervisors, Department Heads to CAO's in the local government sector.

These Fire Prevention "enhancements", were established to provide OMFPOA members with a profession-specific recognition to accompany a member's CMM. All recipients have successfully met both the expanded education and job responsibility requirements determined by the OMFPOA.

We ask if you would have this award recognized at a Council meeting, or other appropriate function. Brief synopsis of our Associations' are enclosed.

Yours truly,

Bruce Taylor, CMM III
President (OMMI)
Corporate Safety & Project
Manager, Municipality of Clarington

George Warner, CMM II Fire Prevention Professional
President (OMFPOA)
Inspector, Fire Prevention Division
City of Toronto

Presentation Synopsis

Ontario Municipal Management Institute

A non-profit association established in 1979 by; Ontario's local and provincial governments, Associations, the Provincial Government, and educational institutions:

"to promote management development through recognition and training of local government staff, supervisors and managers"

The Certified Municipal Manager Accreditation Program:

"Recognizes education and employment experience, with four levels of the CMM designation, while providing a personal development analysis with a guiding framework, to encourage broadening a member's career development"

In June 1988, the passage in the Ontario Legislature of Bill PR27, accorded full legal status and recognition to the CMM Accreditation. The current membership of over sixteen hundred; includes thirty professions in the local government sector, from front staff to senior management.

A number of recent, expanded partnerships, with the supporting associations (above), provide opportunities for profession-specific "enhancements" to the CMM. These, new Supplemental Accreditations, help our partners address the accreditation needs of their members.

Ontario Municipal Fire Prevention Officers Association

With over 600 members, from over 200 different Fire Departments and Fire Service related companies, throughout the Province of Ontario, the association plays a key role in promoting fire prevention and fire safety education initiatives on both provincial and federal levels.

The organization started from a need to share knowledge among peers and has grown into a group that is regularly consulted on new directions in fire prevention. It regularly calls upon the members to represent the group and provide input into the development of codes, standards and other relevant pieces of legislation.

The Fire Prevention "enhancement" of the CMM was officially introduced in June, 2006 at the OMFPOA Spring Conference in Barrie. This initiative addresses the career development and recognition needs of their members, providing a profession-specific credential. All recipients of this designation have successfully met both the expanded education and job responsibility requirements, in the area of Fire Prevention, as determined by the OMFPOA.
