Towards a Sustainable Community

Don River Watershed Plan - Beyond Forty Steps

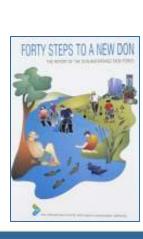

Presentation to Markham Development Services Commission April 27, 2010

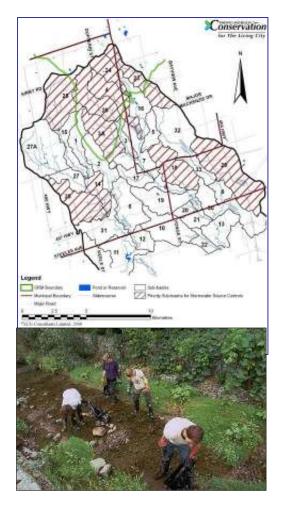

Watershed Planning Objectives

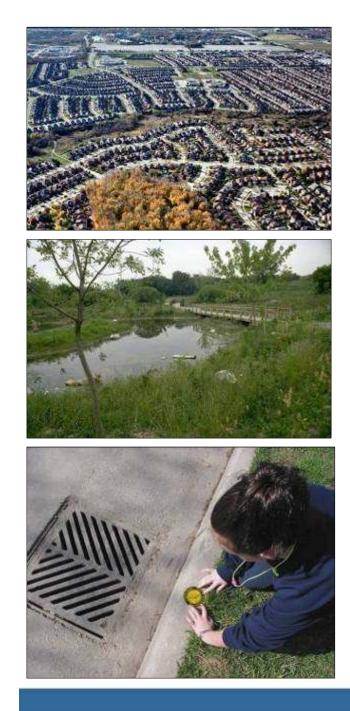

- Fill gaps and update science
- Model stormwater management retrofit scenarios in 905
- Update management strategies
- Set regeneration priorities
- Prepare concept site plans to illustrate "on the ground" implementation

Key findings

- Important gains since Forty Steps to a New Don (1994)
- We are "holding the line" on the further degradation of the watershed
- We must take advantage of every opportunity for improvement ...and be innovative!

Three Strategic Themes

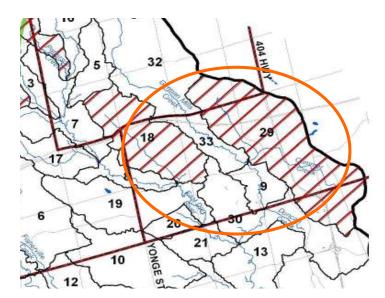

- 1. Build, re-build, and retrofit our communities to restore water balance and improve sustainability
- 2. Regenerate the aquatic and terrestrial landscapes
- 3. Engage the people of the Don

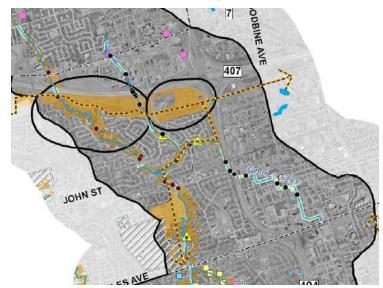

Priorities for Town of Markham

- Continue flood risk reduction work
- Neighbourhood retrofits SWM, greening
- Engage the community

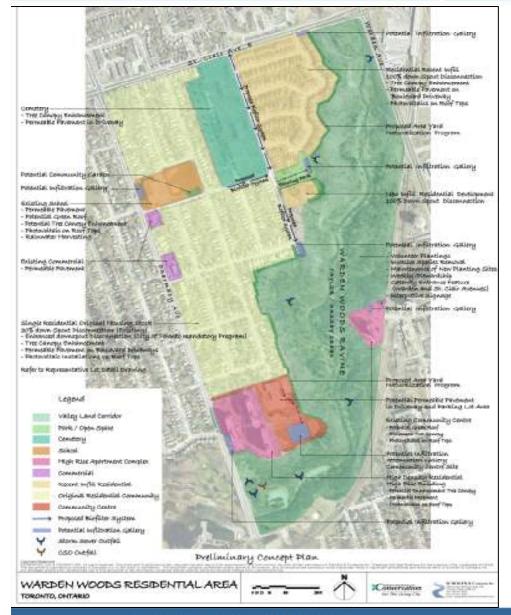

Member of Conservation Ontario

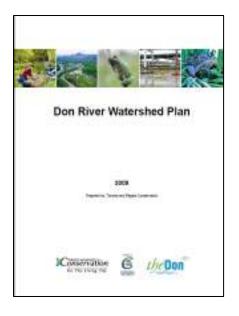

Concept Site Plans

- Ravine Challenges *Mud Creek*
- Sustainable Neighbourhoods -Warden Woods
- Regenerating Natural Heritage *Maple Quonset Hut site*
- Industrial/Commercial Makeover
- Bold Steps Mouth of the Don

Any suggestions for candidate sites in Markham?

Plan Approval and Implementation Process

- Don Watershed Regeneration Council approved the plan July/09
- Approved by TRCA Board Sept./09
- Distribution and request for municipal councils to support the plan and work with TRCA on implementation
- New Don Watershed Regeneration Council formed in March/10

Thank you
