3. **MARKHAM 2020: SUCCESS BY DESIGN (10.16)**

Jim Baird, Commissioner of Development Services, introduced the presentation.

Christina Kakaflikas, Manager, Special Projects gave a presentation entitled "Markham 2020: Success By Design". The presentation explained the context of Markham: 2020, priority sectors, sector performance 2007-2014, and provided a summary analysis. Markham is seeing growth across all priority sectors, and the employment base is diversifying. The labour force distribution was reviewed, and it was noted that the majority of priority sector employees live within a 20 km radius of work. Strength, weaknesses, opportunities and threats were compared between 2008 and 2015. Markham is still regarded as Canada’s High Tech Capital.

Public meetings will be held in October and November to engage stakeholders and further presentations will be made to the public and to Development Services Committee in the next few months.

The Committee discussed employment land conversions, strategies for providing affordable housing and related statistics on income, transportation infrastructure needed to support businesses, transit issues, attracting industries back to North America, attracting millennials, flexible zoning to permit employment uses, and information on travel time versus travel distance.

The Committee acknowledged the attendance of representatives of the TD Bank, one of the top employers in Markham. Discussions included the factors that attract employers to Markham.

Moved by: Mayor Frank Scarpitti
Seconded by: Councillor Amanda Collucci

That the presentation provided by Christina Kakaflikas, Manager, Special Projects entitled "Markham 2020: Success By Design” be received. CARRIED

10. CITY OF MARKHAM COMMENTS ON YORK REGION DRAFT GROWTH SCENARIOS TO 2041 (10.0)

On October 5, 2015, Development Services Committee deferred consideration of the above subject matter to the meeting this date, to allow staff to review sustainable growth issues. A memorandum dated October 19, 2015 was received.

Marg Wouters gave a presentation to provide background information and update the Committee on the sustainability analysis, supplementary to the October 5, 2015 staff report entitled “City of Markham Comments on York Region Draft Growth Scenarios to 2041”. Staff noted that a corrected Table 1 will be provided.

The presentation summarized the Region’s draft growth scenarios of 40% or 50% intensification, or no urban expansion; and the implications for Markham. Draft comments prepared by City staff are based on the alternative scenario approved by Markham Council in 2010: 60% intensification directed to centers and corridors along the rapid transit routes; 20% growth through completing existing urban areas; and 20% through urban expansion (Future Urban Area). Maps were displayed to illustrate the urban growth centers and intensification areas within the built boundary; existing urban areas being completed; and the Future Urban Area.

The Committee questioned the population figures relating to previous/current/projected targets. Markham will need to amend the 2014 Official Plan to incorporate the 2041 forecasts assigned by the Region; however, more information is required from the Region regarding population and intensification targets, and how this will relate to the housing mix and land budget. Staff have a concern with providing substantive input into the Region’s exercise given the relatively short timelines and Markham’s priority in implementing the 2014 Official Plan.

The Committee discussed the three draft scenarios and intensification, Development Charges, transit factors that impact development, and housing mix and building heights to accommodate growth.

Staff are recommending a strategy to “stay the course” with the 2010 growth strategy and 2014 Official Plan based on 60% intensification. With respect to the sustainability analysis, staff consider that the strategy endorsed by Council in 2010 is a balanced, sustainable approach, and that the Greenprint Plan does not preclude consideration of further limited urban expansion.

The Committee discussed correspondence received from Jim Robb, Friends of the Rouge Watershed, dated October 19, 2015, and discussed Markham’s due diligence and “environment first” position.

Evelin Ellison, Ward One (South) Thornhill Residents Inc., made a deputation on this matter. Ms. Ellison referred to comments from the 2010 growth management exercise regarding food independence and transit expansion, and suggested this issue be deferred until the Region provides updated figures, and for public consultation.
The Committee considered pending information, and the consultation that will occur through required statutory Public Meetings at the Region and the City prior to any Official Plan Amendments. Timelines for commenting were reviewed. Staff noted that it will be incumbent on Markham to amend its Official Plan to align with the Upper Tier Regional Plan.

In response to a question regarding next steps, staff commented that it will be necessary for the Markham members on Regional Council to input discussions at the Region. Any public consultation at the local level would be in early 2016, and be informed by the status of growth options being considered by the Region.

Moved by: Councillor Valerie Burke
Seconded by: Deputy Mayor Jack Heath

Whereas Council's endorsement of staff's comments and preferred growth scenario for Markham in response to York Region’s draft growth scenarios is premature; and,

Whereas Markham Council has had no public consultation whatsoever regarding staff’s preferred growth scenario/urban expansion comments; and,

Whereas staff's report contains no information about the financial implications to Markham taxpayers with respect to staff's draft preferred growth scenarios or any other options; and,

Whereas the Growth Plan and Greenbelt Plan are currently under a Provincial 10-year review through the Ministry of Municipal Affairs and Housing; and,

Whereas the Province established the “Crombie Panel” to consult and make recommendations to the Province, with this report expected to be released in November 2015; and,

Whereas following the “Crombie Panel”, the Province is expected to make amendments to the Growth Plan;

Now therefore be it resolved:

1) That the correspondence from Jim Robb, General Manager, Friends of the Rouge Watershed, dated October 19, 2015, regarding City of Markham Comments on York Region Draft Growth Scenarios to 2041, be received; and,

2) That the deputation by Evelin Ellison, Ward One (South) Thornhill Residents Inc., regarding City of Markham Comments on York Region Draft Growth Scenarios to 2041, be received; and,

3) That the Memorandum dated October 19, 2015 entitled “Sustainability analysis supplementary to the October 5, 2015 staff report entitled City of Markham Comments on York Region Draft Growth Scenarios to 2041” be received; and,

4) That the report entitled “City of Markham Comments on York Region Draft Growth Scenarios to 2041” dated October 5, 2015 be received; and,
5) That the report entitled “City of Markham Comments on York Region Draft Growth Scenarios to 2041” dated October 5, 2015 be deferred subject to the following:

a) Markham undertake a public consultation process to inform Markham residents about staff draft preferred growth scenarios and other options; and,

b) Staff report back to Council outlining resident input feedback; and,

6) Staff report back on the capital and operating financial implications of all growth scenarios being considered, and;

7) Staff report back on the results of the “Crombie Panel” recommendations and Provincial Amendments to the growth Plan that may arise; and further,

8) That staff be authorized and directed to do all things necessary to give effect to this resolution
